## DETAILED ACTION

### Summary

On October 4, 2003, an Office Action was sent to the Applicant rejecting claims 1-23. On December 19, 2003, the Applicant responded by amending claims 1-3, 6-7, 9-15, 17, and 22-23. In the response, the Applicant requested an interview to be conducted prior to the next Office Action. The Examiner granted this request on April 28, 2004, and an interview summary is attached to the Office Action.

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-23 are rejected under 35 U.S.C. 103(a) as being unpatentable over Walker (6,085,169) in view Fisher (5,835,896).

In response to the amendment, Walker discloses the invention substantially as claimed; however, Walker does not disclose the process of "subsequent to said preparation of entitled offerings but prior to receiving any bids to purchase any offered items, presenting via a computer user interface said entitled offerings to one of more prospective brokers such that each broker may review entitled offerings containing information regarding items being offered for sale on which the broker is entitled to bid, but are not allowed to view information regarding items to which each broker is not entitled to bid". Fisher teaches a method for processing and transmitting electronic

auction information comprising the process of "subsequent to said preparation of entitled offerings but prior to receiving any bids to purchase any offered items, presenting via a computer user interface said entitled offerings to one of more prospective brokers such that each broker may review entitled offerings containing information regarding items being offered for sale on which the broker is entitled to bid, but are not allowed to view information regarding items to which each broker is not entitled to bid" (col.4, line 45 to col.5, line 27). It would have been obvious to one having ordinary skill in the art at the time the invention was made to incorporate the process of presenting the offerings for review prior to receiving bids, as taught by Fisher into the process disclosed by Walker, as an additional rule that may be submitted by the customer when attempting to purchase an item, so that the customer may improve their chances of purchasing the exact item desired.

### ***Response to Arguments***

Applicant's arguments with respect to claims 1-23 have been considered but are moot in view of the new ground(s) of rejection.

### ***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within

Art Unit: 3624

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
